

Dr. Norris Austin a longtime educator in Houston Independent School District (H.I.S.D.), formally Assistant Principal at Robert E. Lee Sr. High and former principal at Francis Scott Key Jr. High has gone to his maker on February 23, 2013. He will truly be missed but not forgotten. He found the time in his life to give us the gift of allowing me to video one of his many sessions teaching the intent of the Constitution For the United States of America. This is a nine (9) hour review where you can read along with the study book that was used for many years by hundreds of students and now made available to you here today. These videos were made in the late 1990s, so the quality is lacking, but the message is crystal clear.

Dr. Norris Austin

Dr. Norris Austin will live through you as he does through us by the knowledge that we obtain through these videos. Download your own copy and give a copy to your library so that the message can be shared with others. The time you spend viewing these videos will be well worth it. You will come away with the knowledge to ask “By what Authority” does the government employees do what they do and have the education to point to Article 1, Section 8 in the Constitution that restricts their authority to act. You will know for a fact when you are being lied to and have the knowledge to hold them accountable for violating their Oath of Office If they fail to straighten up, you will then learn to be able to have them recalled and put someone else in their place that will abide by the Constitution. There are over 300 million of us and just a few of them. But first, you must obtain the education. These videos will accomplish this task.

Enjoy
